DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 10-13 and 22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. In claim 10, line 5 the platform removably mounted on the spine member is considered new matter.

Also, in claim 22, line 2, the "flexible cover" is considered new matter.

Response to Arguments

3. Applicant's arguments filed May 14, 2004 have been fully considered but they are not persuasive. The platform being removably mounted on the spine member and the flexible cover are new matter and are not supported in the specification.

Allowable Subject Matter

4. Claims 15-19 and 21 are allowed.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
